

# SOCIAL AND EMOTIONAL SUPPORT IN WISCONSIN

Everyone needs quality relationships to meet their social and emotional needs. Older adults and adults with disabilities are at higher risk of not getting the support that they need. **Research shows** that 15% of adults ages 75+ and 15% of adults with disabilities rarely or never get the social and emotional support they need, compared to 8% of the general population.

## But there's more to the story...

Other factors increase who is more likely to report rarely or never getting the social and emotional support that they need.

**27%**

of older adults who identify as **LGBTQ**, compared to 10% of those who identify as cis-hetero

**19%**

of older adults who identify as a **person of color**, compared to 10% of those who identify as white

**23%**

of adults with disabilities with **4 or more adverse childhood experiences (ACEs)**, compared to 7% of those who report 0 ACEs

**20%**

of adults with disabilities who report an **annual income below \$35,000**, compared to 10% of those with annual incomes above \$35,000
